LEE2006N – LIST OF FILES

The relationship between lung cancer and ETS exposure - Adjustment for the potential confounding effects of multiple risk factors and for misclassification of active smoking status - Updated analyses - October 2006

The main body of the report can be downloaded as LEE2006N.PDF

The appendices can be downloaded as a zip file LEE2006N_APP.ZIP which contains the following files:-

Appendix 1 (UpdateApp1.pdf)
Studies/analyses not included in Table 1

Appendix 2 (UpdateApp2.pdf)
Fuller details of the analyses relating lung cancer risk to the number of cigarettes smoked by the husband – unadjusted for confounding and uncorrected for misclassification

Appendix 3 (UpdateApp3.pdf)
Review of papers since 2000 relating risk of lung cancer to potential confounding variables

Appendix 4 (UpdateApp4.pdf)
Fuller details of the analyses relating lung cancer risk to fruit and vegetable consumption

Appendix 5 (UpdateApp5.pdf)
Fuller details of the analyses relating lung cancer risk to dietary fat consumption

Appendix 6 (UpdateApp6.pdf)
Fuller details of the analyses relating lung cancer risk to education

Appendix 7 (UpdateApp7.pdf)
Review of papers since 2000 relating ETS exposure at home to the potential confounding variables

Appendix 8 (UpdateApp8.pdf)
Fuller details of the analyses relating ETS exposure at home to fruit and vegetable consumption

Appendix 9 (UpdateApp9.pdf)
Estimation of the standard deviation for years of education

Appendix 10 (UpdateApp10.pdf)
Fuller details of the analyses relating ETS exposure at home to dietary fat consumption

Appendix 11 (UpdateApp11.pdf)
Fuller details of the analyses relating ETS exposure at home to education

Appendix 12 (UpdateApp12.pdf)
Estimation of intercorrelations within never smokers between fruit, vegetables, dietary fat and education

Appendix 13 (UpdateApp13.pdf)
Fuller details of the analyses relating lung cancer risk to the number of cigarettes smoked by the husband – adjusted for confounding

Appendix 14 (UpdateApp14.pdf)
Fuller details of the analyses relating lung cancer risk to the number of cigarettes smoked by the husband – adjusted for different confounders

Appendix 15 (UpdateApp15.pdf)
Fuller details of the analyses relating lung cancer risk to the number of cigarettes smoked by the husband – adjusted for confounding and corrected for misclassification

Appendix 16 (UpdateApp16.pdf)
Fuller details of the analyses relating lung cancer risk to the number of cigarettes smoked by the husband – adjusted for different confounders and corrected for misclassification

Appendix 17 (UpdateApp17.pdf)
Fuller details of the analyses relating lung cancer risk to whether or not the husband smoked – unadjusted for confounding and uncorrected for misclassification

Appendix 18 (UpdateApp18.pdf)
Fuller details of the analyses relating lung cancer risk to whether or not the husband smoked – adjusted for confounding

Appendix 19 (UpdateApp19.pdf)
Fuller details of the analyses relating lung cancer risk to whether or not the husband smoked – adjusted for confounding and corrected for misclassification
